INSTRUCTIONS FOR FILLING OUT FORM E - APPLICATION FOR GENERAL PERMIT

General permit fees shall be submitted together with **Form E - Application for General Permit**. Persons with more than one (1) point source shall obtain a general permit for each point source or specific area. Where there are multiple releases from a single operating location, however one (1) application may cover all facilities and releases.

For Storm Water permits for land disturbance activities, Form G should also be submitted.

- 1.00 Please give the name of the specific general permit that you are applying for: for example, Land Disturbance, Motor Vehicle Salvage, Swimming Pool Discharge, etc. If you are unsure about the specific name for the general permit, contact the Water Pollution Control Program at (573) 751-6825 for information.
- 1.10 If the application is for a permit to discharge storm water only, please check yes. If the discharge for which you are seeking a permit includes industrial process or waste water discharges, please check no.
- 1.20 Fill out either Item (a.) or Item (b.) as applicable.
- 2.00 Name of facility - by what name is this facility known locally? Example: Southwest Sewage Treatment Plant, Country Club Mobile Home Park, etc.
- 2.10 Give the street address of the facility. If the facility lacks a street name or route number, give the most accurate alternate geographic information.
- 3.00 Owner - legal name and address of owner.
- 4.00 Continuing Authority - permanent organization which will serve as the continuing authority for the operation, maintenance and modernization of the facility.
- 5.00 Operator - name, certificate number of person operating the facility.
- 6.00 Give name of person at the facility that can be contacted by the department if necessary.
- 7.00 An outfall is the point(s) at which wastewater is discharged. For storm water this may be the point(s) where water leaves the property. Outfalls should be given in terms of the legal description of the facility. Sufficient information should be submitted so the outfall may be located by department staff.
- 7.10 Receiving stream(s) - the name of the stream(s) to which the discharge is directed and any subsequent tributary until a continuous flowing stream is reached.
- 7.20 Describe the primary business conducted at this site.
- 7.30 A combined sewer system is one in which the sanitary and storm sewers are one pipe. In Missouri, parts of Macon, Moberly, Cape Girardeau, St. Joseph, Kansas City, Sedalia, and all of the city of St. Louis are on combined sewer systems. To find out, consult with your municipal public works department or, if in St. Louis, the St. Louis Metropolitan Sewer District (MSD). **If this discharge is to a combined sewer system, it is exempt from storm water permitting requirements. You do not need to file this application if it is for storm water discharges only.**
- 7.40 List only your primary SIC code. The Standard Industrial Classification (SIC) system was devised by the U.S. Office of Management and Budget to cover all economic activities. To find the correct SIC code, an applicant may check his or her unemployment forms or contact the Missouri Division of Employment Security (573-751-3215). The primary SIC code is that of the operation that generates the most revenue, or, secondly, employs the most personnel.
- 7.50 Please list anything stored outside, including wood pallets, empty storage barrels, waste disposal containers (except for a secured Dempsey dumpster), or **anything** that is a raw material, by-product, or product of your manufacturing activities.

If your facility is listed under any of the following SIC codes or major group codes, and you can certify that no materials are stored outside, then **you are exempt from storm water permitting requirements. You do not need to file this application if it is for storm water discharges only.** This information refers to the first two, first three, or all four numbers of your SIC code listed in 3.40 above. The SIC codes that are exempt from regulations if **no** materials are stored outside are: 20xx-23xx, 25xx, 265x, 267x, 27xx, 283x, 285x, 30xx, 31xx, 323x, 34xx-39xx, and 4221-4225.
- 7.60 A map showing the facility in relation to the local roads and receiving streams is mandatory. Attach a 1" = 2000' scale USGS topographic map that can be obtained from the MDNR, Division of Geology and Land Survey in Rolla, MO. (573) 368-2125.
- 7.70 If this is an existing discharge, submit a list of the pollutants that have been analyzed in the past two years and any laboratory findings.
- 7.80 Give the source of your drinking water, identify the future supply if the site is currently undeveloped. If public supply, give name. If private supply, indicate type of well(s): individual, multi-family or public. If other, please describe.
- 7.90 Give the method of domestic wastewater disposal, identify the future method if the site is currently undeveloped. If public sewers, give name of sewer agency. If private system with a State Operating Permit, give name of facility and permit number. If other, please describe.
- 8.00 Signature - all applications must be signed as follows and the signature must be original.
 - a. For a corporation, by an officer having responsibility for the overall operation of the regulated facility or activity or for environmental matters;
 - b. For a partnership or sole proprietorship, by a general partner or the proprietor;
 - c. For a municipal, state, federal, or other public facility, by either a principal executive officer or by an individual having overall responsibility for environmental matters at the facility.

If there are any questions concerning this form, please contact the appropriate regional office ([see map](#)).
